## Capabilities Statement

---

JSK Oilfield Service LLC we provide a wide array of services in the oil and gas industry as well as the construction industry. We strive to perform quality service at a more than fair price. All the equipment we have in house is less than 3 years old and is maintained daily to keep from any unexpected breakdowns to occur on the job. All personnel are properly trained for the job that is taking place.

At JSK the capabilities we provide are "skies the limit" as we are very diverse in a few different fields. We can build oilfield facilities or take down. We also have all the latest tool, power equipment, etc to handle the task at hand. With our in house equipment list excavators, compact skid steers, gooseneck trailers, commercial lawn mowers, bush hog, mulcher, etc anything outdoor is right up our ally.

## Core Competencies

---

- Oilfield Services
- Excavation and site work
- Landscaping
- Hauling
- Consulting

## Differentiators

---

At JSK we strive for greatness each and everyday. We are located in the central texas region which is the heart of texas. Each member of our team has well over 5+ yrs experience in the diverse industry we provide expertise in. We also live on the name {jsk} says it all. Our completion times are usually on or before the projected completion dates set in the beginning of each project. Call JSK and see why you too will agree with us.
